WHAT A DIVER SAYS. Doubt relating to the exact cause of the errible explosion of the steamer Julia at outh Vallejo yesterday morning has been removed by the investigation of a diver. He worked about the wreck for some time yesterday afternoon and declares positively that the two petroleum tanks are intact and that the end of one of the boilers is blown clean out, one end being in one part of the vessel and the other in another.

NAMES OF THE KILLED. At eleven o'clock last night fourteen podies had been found, of which twelve were identified. The missing number between fifteen and twenty. The bodies identified are those of Walter Lemore, aged twenty-seven; Melvin J. Hodgkins, thirty-one; Michael Higgins, forty; Edward Rule twenty; Michael Branley, thirty-seven; Albert Madison, forty-three; William Connolly, fifty-two; Theodore C. Stark, forty-four; Olif Nielson, twenty-eight; John Braverick, thirty-three; Joseph Tracas, ifty, and William Oliver.

TWENTY-FOUR LIVES LOST. A special dispatch from Vallejo to-day ays: There have been no new develop thus far. Divers are now at work in the bull of the steamer. #### LOCAL INTELLIGENCE.

An Unsettled Date.

Quite a controversy is going on between diaries recently dug up, ranges from January 18th to the 24th, in 1848. The Marshall sirous to arrive at the exact date and are seeking for information to that end. Now comes Sam Brannan and says that they are all wrong, that the memorable discovery took place at Coloma in December, 1847. In 1847 48 and 49, Samuel Brannan was publishing a paper in San Francisco called The California Star. In his issue of April 1, 1848 a few weeks after the discovery a probable estimate of its magnitude can not be derived from any information we have received. It was discovered in December last, on the south branch of the American Fork, in a range of low hills forming the base of the Sierra Nevadas, distant about thirty miles from New Helvetia. It is found at a depth of three feet below the surface, and in a strata of soft sand-rock. Explorations made southward the theater for the meetings. the distance of twelve miles, and to the northward five miles, report the continuance of this strata, and the mineral equally abundant. The vein is from twelve to eighteen feet in thickness. Most advantageoasly to the new mines, a stream of water flows in the immediate neighbornood, and the washing will be attended

with comparative ease. Complimentary Resolutions.

Madison Babcock having been elected Assistant Superintendent of the city schools of San Francisco, resigned the Principalship of the Sacramento Grammar friends, all of whom dislike to lose him from this community. The following was handed into this office last evening by the lady tagethers.

We, the undersigned, teachers in the Sacramento Grammar School, desire to express our regret at lo-ing Mr. Babcock from the department and from our school. We el grateful to the railroad managers, that notwithstanding the most severe winter ever known on the Pacific coast, they have pushed this great work to completion, or so nearly so, that we know there is a railroad to Placerville. There is yet considerable work to be done, a round-house, turntable, and depot buildings are to be constructed, the material for all this work is being brought on the ground framed and ready to be put together, and a large force of carpenters are actively engaged in this Theater next Monday evening, with a pro-work, so we are assured that within a very gramme that it is promised will be "reshort time freight trains and passenger coaches will take the place of the construc-

It contained, among other valuables, some \$200 in cash, and the lady wanted the train stopped in order that she might return and her money. The conductor, after listening to her story, inquired what kind of a satchel it was, cast his sharp eves around, and seeing a "grip" that looked like the one described, inquired of the lady if that was the missing one. After glancing at it intently for a moment, she pounced on it joyfully, opened it and after examining the contents, found her property intact. What is Scrofula

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which developes ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or many other manifestations usually ascribed to "humors." It is a more formidable enemy than consumption or cancer alone, for scrofula combines the wors possible features of both. Being the most ancient, it is the most general of all diseases or affections for very few persons are entirely free from it. parilla, which, by the cures it has accomplished often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. ## MEN'S SHOES

These shoes belong to a high class of goods, kept usually only in larger cities. There is no reason, however, why persons living in interior points should be denied the splendid satisfaction in fit and wear which they always give.

It may seem to some that \$9 is a high price. It is above the average. But we say to the reader, as we often do to our customers: "Wear good shoes. Be comfortable. Save your strength and money. Pay a little more to-day and save it by the year. Have the use of your feet, and the beauty of well made shoes."

Those who once try these shoes generally continue to wear them. That is the best recommendation they can possibly have.

We keep them in all styles-Congress, hook and lace and button.

#### INFANTILE SKIN DISEASES

Our oldest child, now 6 years of age, when an infant 6 months old was attacked with a virulent, malignant skin disease. All ordinary remedies failing, we cailed our family physician, who attempted to cure, but it spread with almost incredible repidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, paintul, blotched and malicious. We had no rest at night, no peace by day. Finally we were advised to try the Cuticura Remedies. The effect was simply marvelous. In three or four weeks a complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion your valuable remedies saved his life, and to-day he is a strong, healthy child, cefectiv well, no repetition of the disease having ever occurred.

## Dr. Liebig & Co.

The European Medical Staff, and Special Surgeons and Physicians of the Liebig World Dispensary and International Surgical Institute, will be in Sacramento for five days only, from February 25th to March 1st, with Offices at St. George Building, 10071 Fourth street.

The surgical branch gives special attention to deform these of every kind, and all displacements requiring appliances for Curvature of the spine, Hip Joint Disease, Distorted Limbs or Arms successfully treated by our new Voltaic and Magnetic appliances.

The medical branch devotes special attention to all Chronic, Complicated, Private and Wart. of an acute or special nature, or from indiscre-tions of youth, bringing on Spermatorrhea, Seminal Weakness and an unnatural drain from the body which undermines the constitu-tion; also Debility, Decay, Loss of Vitality or Manhood, which results from excess of maturity.

The reason so many are not cured of the above complaints is owing to a complication called Prostatorrhoea, which our treatment

called Prostatorrhosa, which our treatment alone can cure. Varicoccle, wormy veins in Scrotum Scricture, blood and skin impurities, speedily cured; acute private troubles safely, confidentially and quickly cured. Catarrh of the mucous membrane of the head or bladder successfully treated; also throat and lung diseases. Female complaints and all complicated delicate diseases of women carefully treated by our new method, whereby none of the usual physical examinations are required. Displacements of the Uterus whereby bone of the usual physical examina-tions are required. Displacements of the Uterus and all special complaints peculiar to females successfully treated. Separate office for ladies, who should call between the hours of 2 and 4 o'clock to avoid the crowd. Office hours 9 to 8 daily; Sundays, 10 to 12 only. Consultation free. All languages spoken and written. Write in your own language. your own language.
